When Bella goes in search of him, she finds herself in remote Cooktown, the isolated, little-known gem of the far north of Australia, and a place where both Ned and Bella's lives will be dramatically changed forever. One story through two sets of eyes.

forecasters underestimated the severity of a storm that turns into a historic blizzard that dumps nearly five feet of snow on Cabot Cove, leaving everyone stranded. H.R.P. Dickson had the good fortune to spend many years among the Badawin, living and travelling with them as one of them in their own tents. In this book, first published in 1949, the author uses his great experience and knowledge to reveal all aspects of the lives of the nomadic desert Arabs, from social systems to marriage and children, from faith to food, sandstorms, warfare and hunting. The Arab of the Desert is truly a wealth of information, informed by personal insight and anecdotes.

It was always at sundown they were seen. In that twilight hour, when the walls between the worlds grew thin, strange things might slip through the cracks. Sometimes then, so the stories went, enchanted islands would appear in the empty ocean to the west of Wildsea. When Utterly Dark was a baby, she was washed up on the shores of the Autumn Isles and taken in by the Watcher of Wildsea. But everything changes when her guardian suddenly drowns. Now who will keep the Watch, and make sure Wildsea stays safe from the strange forces teeming in the deep ocean around them? A magical new story from the

"Frightening...Firestorm comes alive when Struzik discusses the work of offbeat scientists." --New York Times Book Review "Comprehensive and compelling." --Booklist "A powerful message." --Kirkus "Should be required reading." --Library Journal In the spring of 2016, the world watched as wildfire ravaged the Canadian town of Fort McMurray. Firefighters named the fire "the Beast." It seemed to be alive with destructive energy, and they hoped never to see anything like it again. Yet it's not a stretch to imagine we will all soon live in a world in which fires like the Beast are commonplace. In Firestorm, Edward Struzik confronts this new reality, offering a deftly woven tale of science, economics, politics, and human determination. It's possible for us to flourish in the coming age of megafires--but it will take a radical new approach that requires acknowledging that fires are no longer avoidable. Living with fire

also means, Struzik reveals, that we must better understand how the surprising, far-reaching impacts of these massive fires will linger long after the smoke eventually clears.

1913 vormde het laatste gloriejaar van Europa voordat de oude wereldorde instortte. In 1913 werden in de literatuur, de kunst en muziek de extremen opgezocht alsof er geen morgen was. Proust zoekt naar de verloren tijd, Malevitsj schildert een vierkant, Stravinsky viert het lenteoffer. Kafka, Joyce en Musil drinken op dezelfde dag in Tri ë st een cappuccino, en in M ü nchen probeert een Oostenrijkse schilder, ene Adolf Hitler, zijn treurige stadsgezichten aan de man te brengen. Florian Illies heeft een adembenemend panorama geschreven van een sleuteljaar in de Europese cultuur. 'Een schitterend tijdsbeeld "van binnenuit" toen Europa nog Europees was, en al bijna niet meer.' - Rob Riemen, auteur van Adel van de geest

We talk about the weather a lot. It exasperates, confounds and on occasion delights us. Our national conversation is dominated by the weather, but how much do we really know about it? In *Bring Me Sunshine*, Charlie Connelly sets off on the trail of our island obsession. He breezes through the lives of meteorological eccentrics, geniuses, rainmakers and cloud-busters and brings vividly to life great weather events from history. He sheds light on Britain's weirdest wind, why we have the wettest place in England to thank for the trusty pencil, the debt that umbrella owners owe to Robinson Crusoe and why people once thought firing cannons at clouds was a great idea. Having adventured round the shipping forecast areas for his bestselling *Attention All Shipping*, Connelly is the perfect guide through a *mélange* of gales, blizzards, mists, heatwaves and the occasional shower of fish. By turns informative, entertaining and hilarious, *Bring Me Sunshine* answers all your weather questions

West Of The Equator is a satirical account of one man's spiritual journey, as told by his spirit guide, Ian - a well seasoned West Indian merchant sailor who narrates the story of a Chicago stock trader who goes to the West Indies and buys a 75' catamaran to set out in search of Paradise. Instead, he finds a female captain who turns out to be the love of his life, chaos, mayhem, and, eventually, true happiness but only after he faces unbelievable trials and is stripped of everything he owns along the journey. In this humbled state, he discovers that he is, in fact, the island, his life the vessel, and that everything he'd every truly needed had been aboard all along. It is a very funny satirical look at life in Paradise and the Zen of sailing.

A bitter war rages as the planet-eating super-robot Unicron approaches. Cybertron is coming apart and the inhabitants of Earth tremble before the power of the utterly insane Galvatron. With Optimus Prime missing in battle it might finally be the day when all hope is gone.
